DATABASES: MySQL, Firebase, Contentful

TOOLS: VSCode, Wordpress, Postman, Heroku, Figma, Notion, Git, Github, and Bitbucket for version control

PROFESSIONAL EXPERIENCE

JUNIOR SOFTWARE DEVELOPER, TOTALLY NORMAL HUMANS

March 2021 - present

TNH is a consultancy firm specializing in web applications for clients across multiple sectors. Position is fully remote.

- Developing and maintaining a medical services application using VueJS and API management with Contentful headless CMS.
- Building modular, reusable components and libraries. Optimizing application performance while keeping an eye on recent JavaScript, React, and VueJs ecosystem changes
- Planning, building, and deploying new features for our in-studio product with React.js, TypeScript, functional CSS3 with Sass, Firebase for user authentication and file storage
- Operating both independently and on small agile teams designing, developing, and integration testing using Jest for mobile and web applications
- Building reports with quick turnaround to provide data for projects, presentations, and client meetings. Receiving constructive feedback in code reviews to become a better developer.
- Ideating, connecting, and group brainstorming to better translate clients' business needs into functional code with expectations of high quality deliverables within tight timelines

APPRENTICE FRONT-END AND PYTHON DEVELOPER, NASHVILLE SOFTWARE SCHOOL

September 2020 - March 2021

NSS is an intensive 6 month, full-time boot camp conducted in a simulated company environment with Scrum methodology anchored in professional training utilizing group and individual project based learning.

- Single page application development with React, with a focus on ES6+ JavaScript features and modular code
- Server-side development with Python, Django, and SQL

EDUCATION

Nashville Software School | Web Software Developer Certification (Oct 2020 - March 2021)

Middle Tennessee State University | B.A. in English | Summa Cumme laude
